Learning together, working together, achieving together

Inside the folder

There are up to date information sheets inside this folder. These include information about our induction arrangements, attendance and achievement data for the previous year.

Careers guidance

Careers education and guidance (CEG) is accorded a high priority, in preparing students for the opportunities and challenges of adult and working life. CEG is seen as playing an important role in motivating our students to maximise their academic and personal achievement whilst at school. CEG is taught across the school, in every year group from Year 7 through to Year 13. The Bemrose School acknowledges that an effective CEG programme for students will increase the student's life chances and make it more likely that the individual student reaches their full potential.

The Bemrose School

Over the last few years, our staff, students and parents have worked together to support the development of The Bemrose School. There have been many changes – we have a new name, our own sixth form, we specialise in supportive mainstream provision for students on the autistic spectrum with a brand new facility, examination results have risen consistently and the school is now a popular choice for many families in the local communities.

I invite you to come and see for yourself by making an appointment to look around the school during a normal working day or by visiting the school on our annual Open Evening.

I invite you to support our ongoing development by working with us to ensure that all of our children achieve to the very best of their abilities regardless of starting point.

Our children have chosen a motto for the school – Learning Together, Working Together, Achieving Together – I invite you to join with us to see it in action.

Jo Ward, Headteacher

*"... he is very happy, doing well and also aspires to university."
(Mrs B, parent)*
