Multiplication Triangles

Fill in the blanks in these multiplication triangles.

13.

A multiplication triangle with the number 12 at the top vertex. Below it are two division symbols. At the bottom left is the number 3, and at the bottom right is a blank box. A multiplication symbol is between 3 and the box.

$$\begin{array}{c} 12 \\ \div \quad \div \\ 3 \quad \times \quad \square \end{array}$$

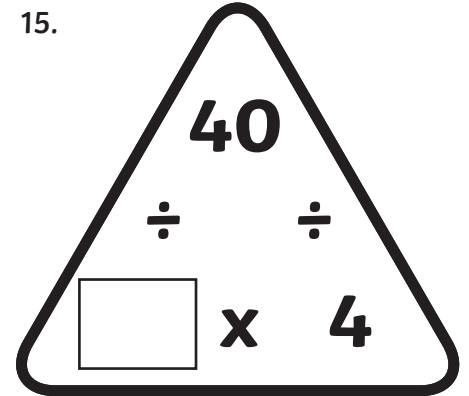

14.

A multiplication triangle with a blank box at the top vertex. Below it are two division symbols. At the bottom left is the number 8, and at the bottom right is the number 12. A multiplication symbol is between 8 and 12.

$$\begin{array}{c} \square \\ \div \quad \div \\ 8 \quad \times \quad 12 \end{array}$$

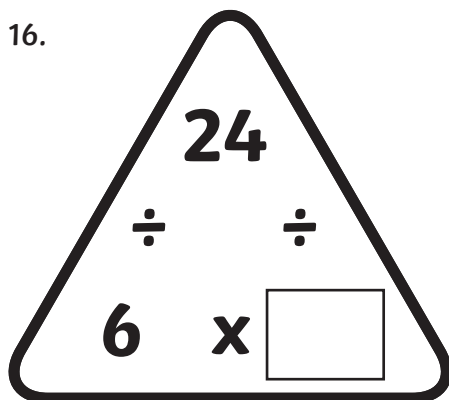

15.

A multiplication triangle with the number 40 at the top vertex. Below it are two division symbols. At the bottom left is a blank box, and at the bottom right is the number 4. A multiplication symbol is between the box and 4.

$$\begin{array}{c} 40 \\ \div \quad \div \\ \square \quad \times \quad 4 \end{array}$$

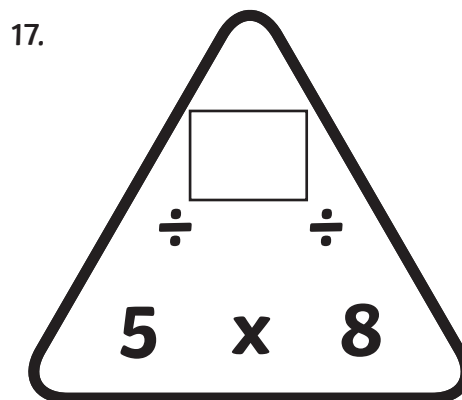

16.

A multiplication triangle with the number 24 at the top vertex. Below it are two division symbols. At the bottom left is the number 6, and at the bottom right is a blank box. A multiplication symbol is between 6 and the box.

$$\begin{array}{c} 24 \\ \div \quad \div \\ 6 \quad \times \quad \square \end{array}$$

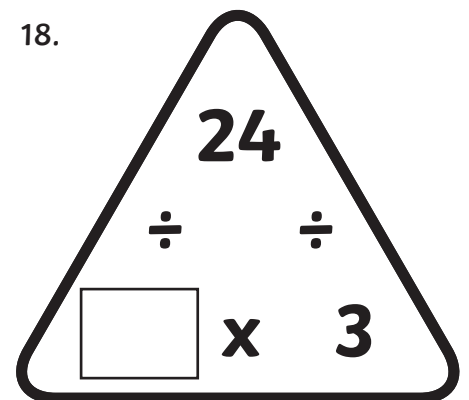

17.

A multiplication triangle with a blank box at the top vertex. Below it are two division symbols. At the bottom left is the number 5, and at the bottom right is the number 8. A multiplication symbol is between 5 and 8.

$$\begin{array}{c} \square \\ \div \quad \div \\ 5 \quad \times \quad 8 \end{array}$$

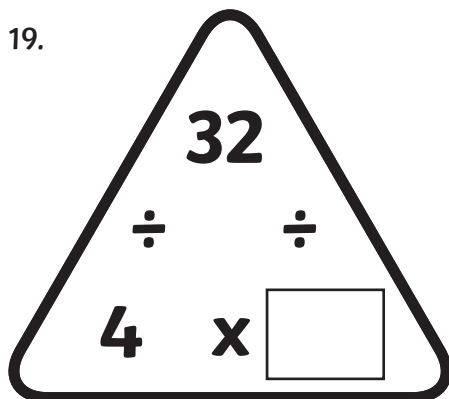

18.

A multiplication triangle with the number 24 at the top vertex. Below it are two division symbols. At the bottom left is a blank box, and at the bottom right is the number 3. A multiplication symbol is between the box and 3.

$$\begin{array}{c} 24 \\ \div \quad \div \\ \square \quad \times \quad 3 \end{array}$$

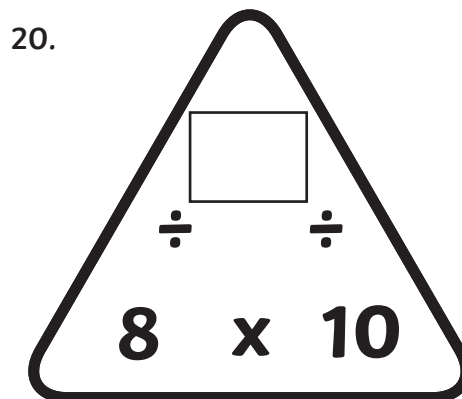

19.

A multiplication triangle with the number 32 at the top vertex. Below it are two division symbols. At the bottom left is the number 4, and at the bottom right is a blank box. A multiplication symbol is between 4 and the box.

$$\begin{array}{c} 32 \\ \div \quad \div \\ 4 \quad \times \quad \square \end{array}$$

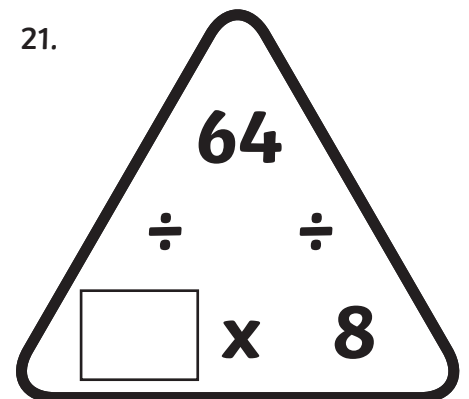

20.

A multiplication triangle with a blank box at the top vertex. Below it are two division symbols. At the bottom left is the number 8, and at the bottom right is the number 10. A multiplication symbol is between 8 and 10.

$$\begin{array}{c} \square \\ \div \quad \div \\ 8 \quad \times \quad 10 \end{array}$$

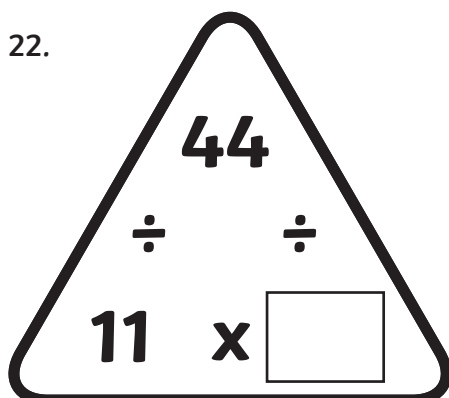

21.

A multiplication triangle with the number 64 at the top vertex. Below it are two division symbols. At the bottom left is a blank box, and at the bottom right is the number 8. A multiplication symbol is between the box and 8.

$$\begin{array}{c} 64 \\ \div \quad \div \\ \square \quad \times \quad 8 \end{array}$$

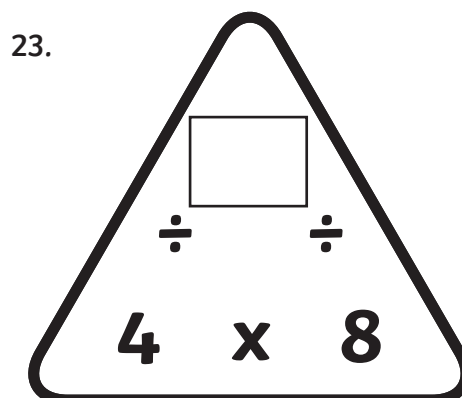

22.

A multiplication triangle with the number 44 at the top vertex. Below it are two division symbols. At the bottom left is the number 11, and at the bottom right is a blank box. A multiplication symbol is between 11 and the box.

$$\begin{array}{c} 44 \\ \div \quad \div \\ 11 \quad \times \quad \square \end{array}$$

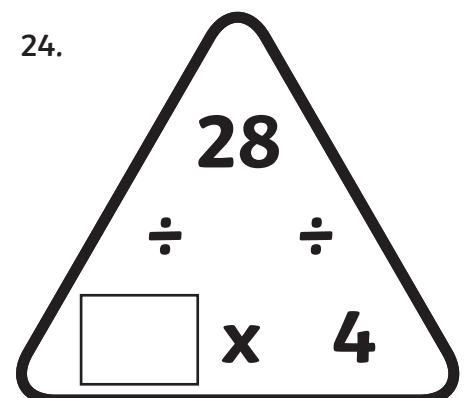

23.

A multiplication triangle with a blank box at the top vertex. Below it are two division symbols. At the bottom left is the number 4, and at the bottom right is the number 8. A multiplication symbol is between 4 and 8.

$$\begin{array}{c} \square \\ \div \quad \div \\ 4 \quad \times \quad 8 \end{array}$$

24.

A multiplication triangle with the number 28 at the top vertex. Below it are two division symbols. At the bottom left is a blank box, and at the bottom right is the number 4. A multiplication symbol is between the box and 4.

$$\begin{array}{c} 28 \\ \div \quad \div \\ \square \quad \times \quad 4 \end{array}$$
